## How it started

- Lake Mälaren started the project "Mälaren – a lake for millions"
- 20 – 23 municipalities around Mälaren
- Seminars, relations and project development

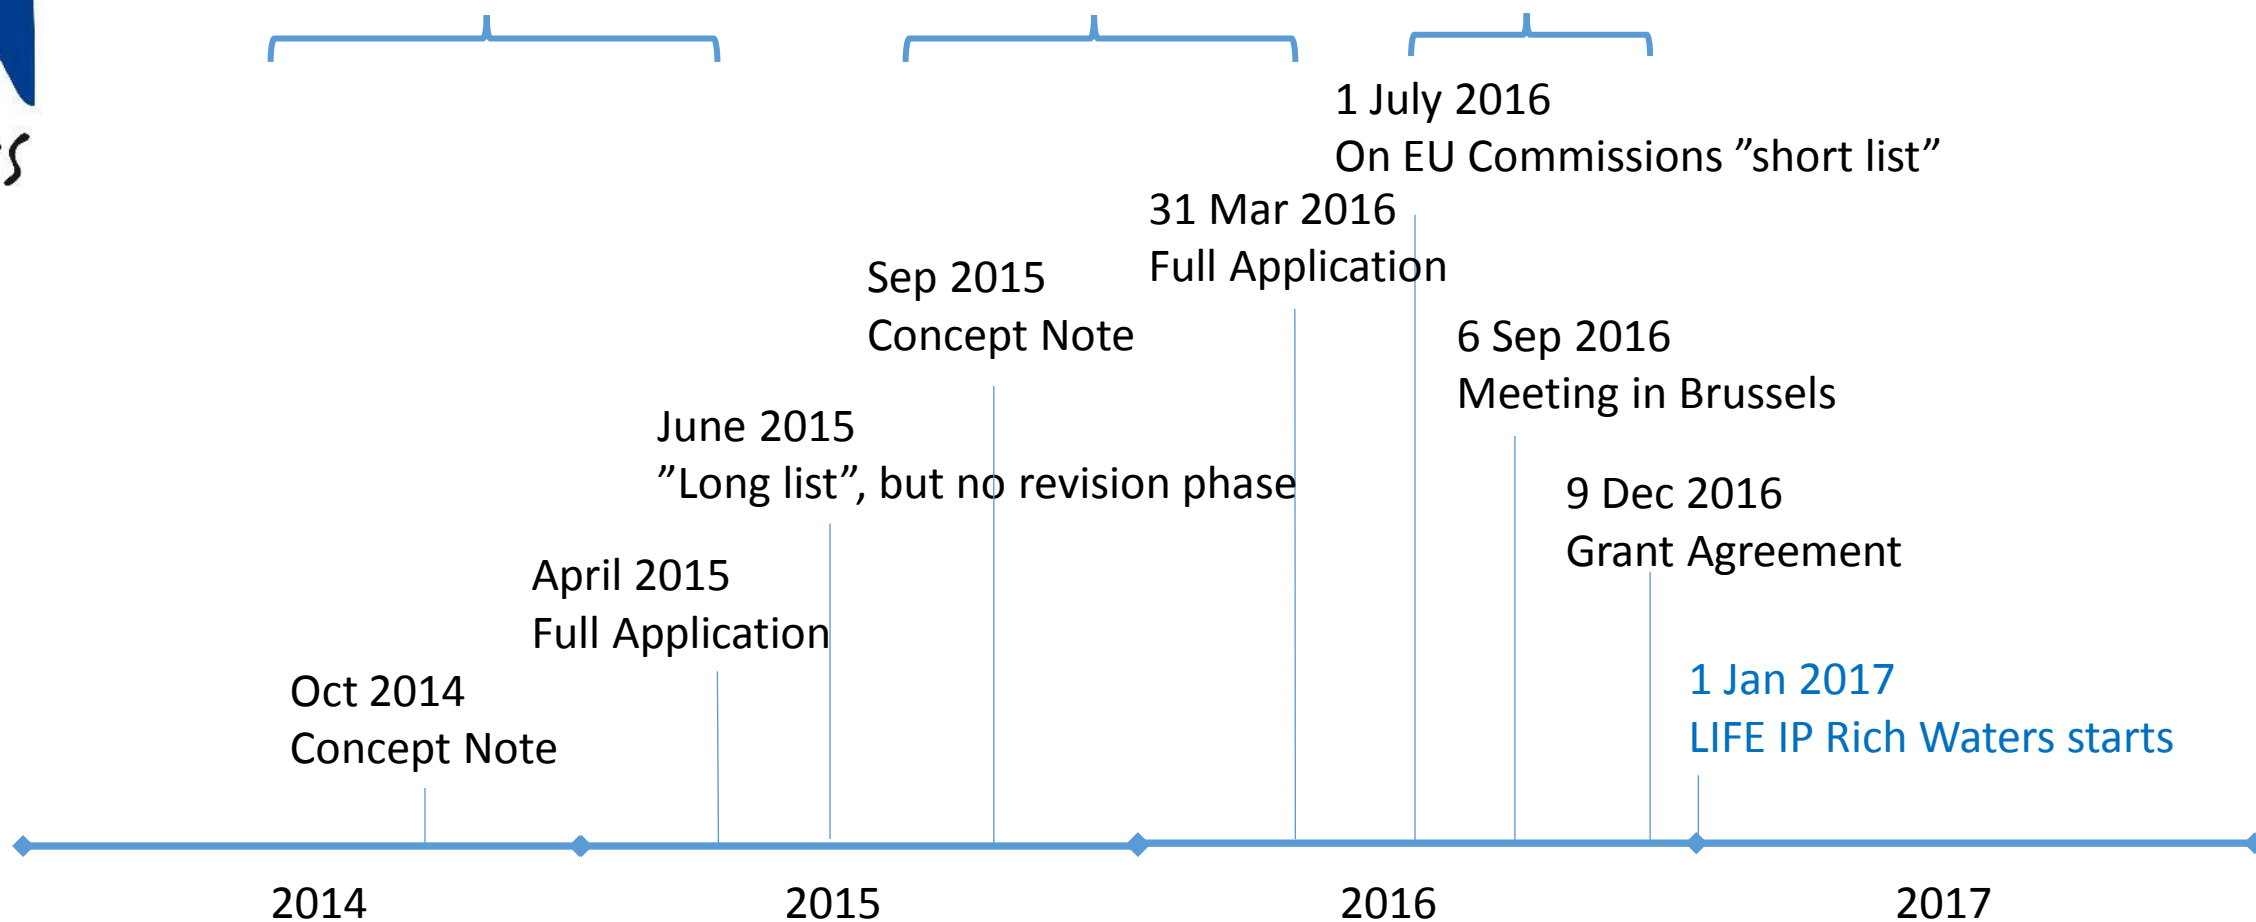

## APPLICATION NORTH BALTIC

## APPLICATION RICH WATERS

## REVISION PHASE

## Considerations

- It's easy to underestimate the effort needed for the preparation, especially full application phase.
- Be prepared on more attempts or to focus preparation in two years
- Include economists early in the process

# Writing and running the application

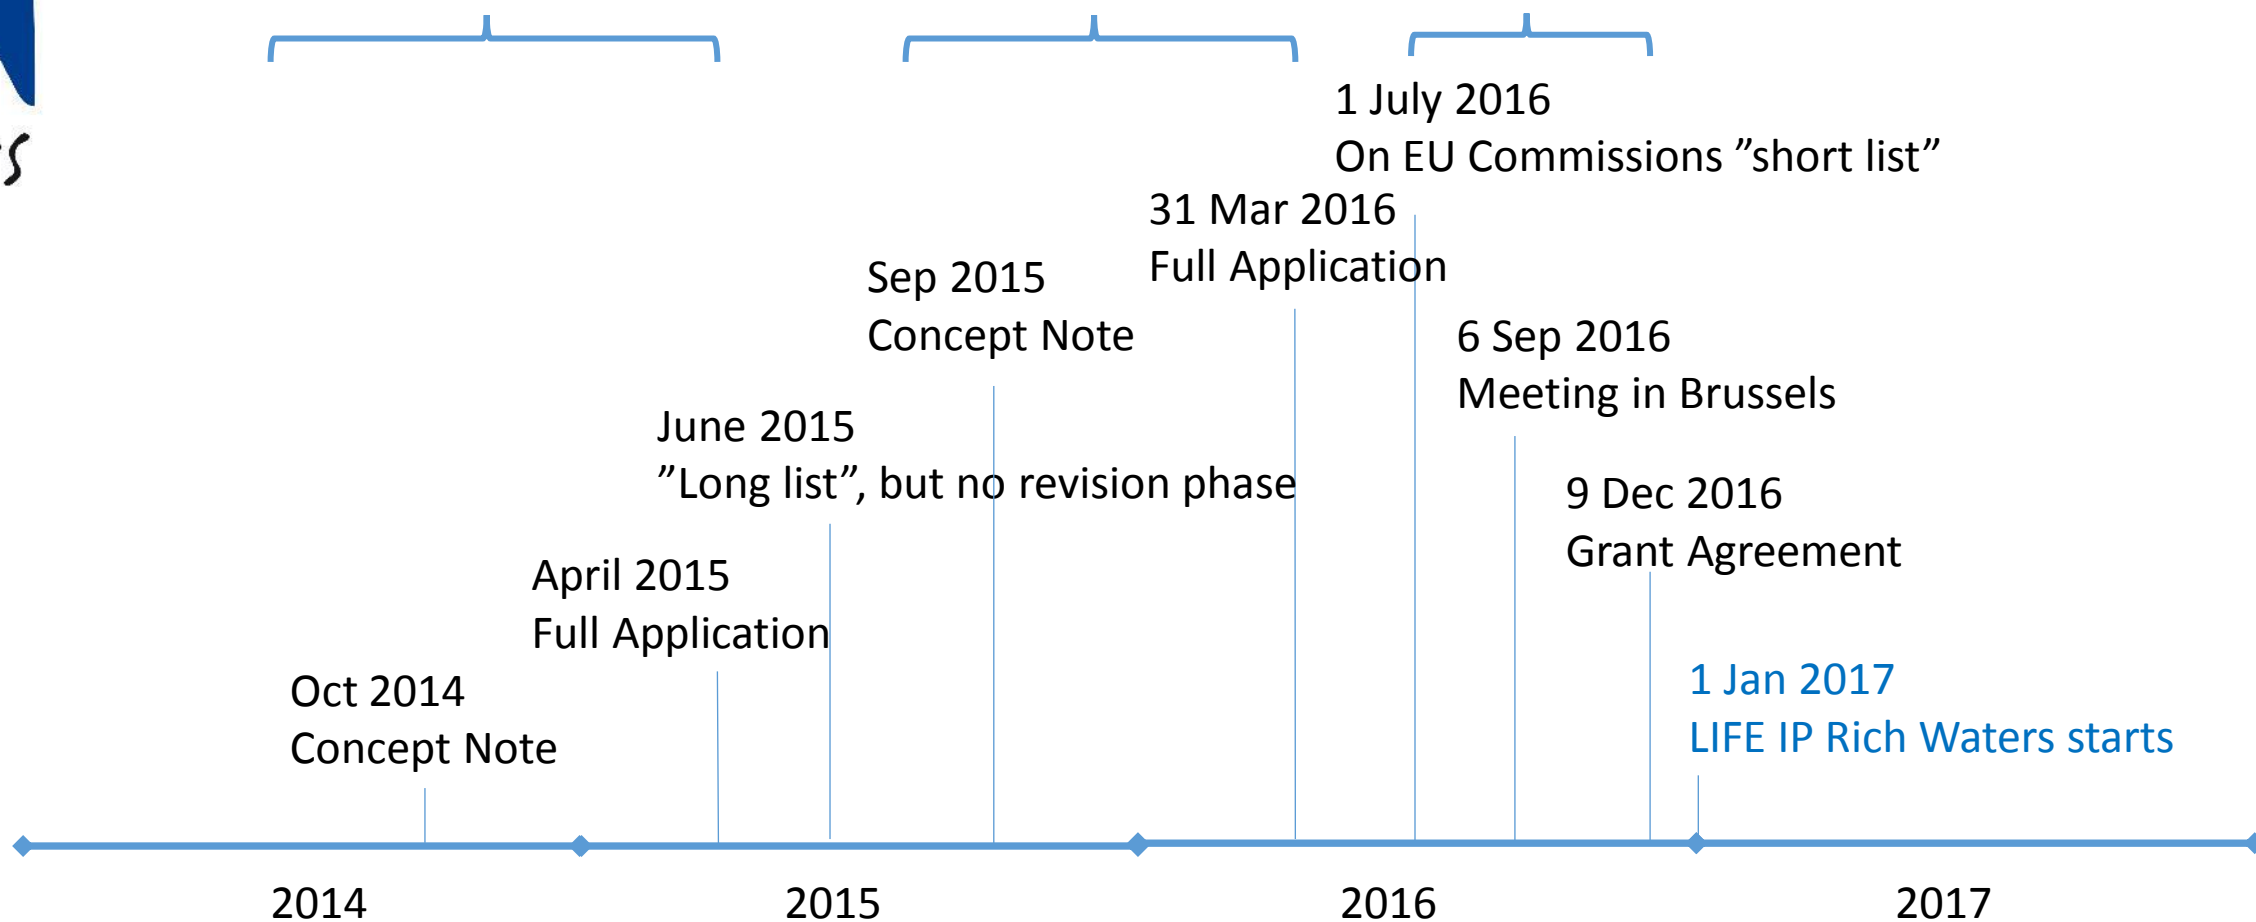

## APPLICATION NORTH BALTIC

## APPLICATION RICH WATERS

## REVISION PHASE

## The cost of the application

The application for each application of the two IP proposals is estimated to 300 000 € (150 000 € each)

Summer 2017  
First concrete  
measure  
carried out

May 2017  
Project  
management  
in place

1 Jan 2017  
LIFE IP RW starts

50 % av budget

Include a start up phase to set up administration  
and management  
Be aware of the risk to have problems with liquidity

30 June 2019

1 Jan 2022

30 June 2024

Phase 1

Phase 2

Phase 3

# Considerations

- Consider a start up phase to set up administration and management
- Be aware of the risk to have problems with liquidity
- Several partners – big management team
- The plan the plan the plan
