# Ocenjevanje predloga projekta

Otočec, 9.6. 2016

Nives Nared, Tatjana Orhini Valjavec, Julijana Lebez Lozej

- 1. Technical Coherence and quality**
- 2. Financial coherence and quality**
- 3. EU added value : contribution to specific objectives of priority areas**
- 4. Contribution to project topics**
- 5. EU added value: multipurpose, synergies and integration**
- 6. EU added value: replicability and transferability**
- 7. EU added value: transnational, GPP, uptake**

# 1. Technical Coherence and quality

- **Clarity**
- **Feasible**
- **Sustainable** (compulsory business plan)

## 2. Financial Coherence and quality

- Value for money
- Cost effective
- Is the budget realistic ?
- Cofinancing?

### 3. EU added value : contribution to specific objectives of priority areas

- **Contribute to implementation, updating and development EU Envir. acquis**
- **Contribute to clear, substantial, ambitious, credible impacts**

## 4. Contributing to project topics

- Is it within „project topics“
- Contribute to clear, substantial, ambitious, credible impacts

## 5. EU added value: multipurpose, synergies and integration

- To what extent does the project include a multipurpose delivery mechanism and concrete actions to link with other EU policies

## 6. EU added value:

### Replicability/Transferability

- Potential replicators = Beyond partners within the project
- How they can use project results
- Who would be potential replicants
- How will they replicate project results

## 7. EU added value:

### Transnational/

- Do they have a participant from another MS

### GPP/

- Public body relevant

### Results up-take
